SUMMARY

I graduated from University of Technology and study in higher diploma in software engineering. I have over 10 years experience in web application development, especially in frontend web development. I develop HTML / CSS / and javascript coding, making the site responsive and friendlier to smaller devices is one of my main aims as well as improving performance. Through the professional knowledge I have and with my experience, I will try to do the best job at the company. Constantly strive for yourself and become the core employee of the company in the coming time.
